

THE TEN PRINCIPLES OF ENTELECHY SEMINAR

THE TEN PRINCIPLES OF ENTELECHY PRESENTED BY JIM MADRID

"Residential real estate sales is largely a mental exercise. Agents spend most of their time alone, and what goes on inside their minds is crucial. Entelechy's education teaches them how to control their self-talk, which allows them to achieve peak performance. It helps them understand the true psychology of self-motivation. What could be more valuable?"

*Bob Le Fever
President & Chief Operating Officer
Coldwell Banker Residential Real Estate*

"In my business, maybe in all businesses, motivation has to come from inside yourself. The Ten Principles seminar is a fantastic way to tap into and use more of the incredible potential that's in all of us. It helps remove the internal barriers to positive change, and when that happens, there are no limits to what you can achieve."

*—Stephanie Vitacco—
Coldwell Banker Residential Brokerage*

*"Fantastic! Great way to open your mind for terrific success and add greater balance to your everyday life."
